

HEATHER CARR

Heather Carr, born 13th August 1949, has been arguably Australia's greatest female Masters racewalker for more than two decades. Now aged 65, she combines natural ability and an insatiable desire to improve, and together they have unquestionably contributed to a long, successful and continuous career in racewalking.

2010 is a good year to take as an example. During that year, she raced an amazing 48 times according to the RWA results website. Even more amazingly, nearly all of them were of exceptional quality. Her PBs for the year were all W60 World Records or World Bests - check this out for a series of times and then ask yourself - could your mum walk like this: 1500m 7:18.5, 2000m 9:54.9, 3000m 15:30.7, 3km 15:19, 5000m 26:29.26, 10km 53:56, 15km 1:24:48, 20km 1:56:42. Of course this was nothing new for Heather as she has been setting Masters World Records since the W40 division and many of them still stand even now as Australian records. But even by her high standard, this was an extraordinary year. Add to that the fact that she is a fine runner and competes in triathlons with some success. Is there anything she can't do?

Heather's current record tally stands at 4 World, 9 Australian and 23 Victorian records. The full list reads as follows (sorry for any mistakes):

Of course, some of the older times in the list were World Records when she did them – for example, her 10 km time of **49:37** (W40) and her 20 km time of **1:42:22** (W40). As an aside, she has set many more records than this but she has lost many of her W40, W45, W50 and W55 records to Lyn Ventris and Pam Tindal and more recently to Kelly Ruddick, all fantastic masters walkers in their own rights.

Heather started racewalking in 1987 but only because her children were involved in Little Athletics. It was when she went to a Little Athletics camp as a camp mother that she was introduced to the event and decided to give it a go. Within one year, she had her first record, over 20 km, in the W35 division.

Heather's first coach was Frank McGuire and she remembers her time with Frank and his group with great fondness. From there, she spent some time with Harry Summers and was one of a number of promising walkers to travel to Europe on two occasions (1990 and 1991) as part of the 'Eight Nations Trips' that Harry organized. It was in Grasso in Italy on the 1990 trip that she recorded her PB 10 km walk time of 49:37.

Heather had the ability to succeed internationally in the Open division but the pressures of a young family of four children (Olivia, Lachlan, Kenna and Ewan) made that next step up the competitive rung just too hard an ask. But it is a testament to her durability and dedication that she could single-handedly raise four children, hold down a full-time position as a teacher and continue to dominate the masters world racewalking scene throughout most of the nineties.

During the early nineties she swapped to Charlie Gorman as coach and, under his guidance, she entered what she describes as the best form of her life. With a diet of intensive track work at the Ringwood venue, she was unbeatable on the World Masters scene and won triple Golds at 3 successive World Veterans Championships (1993, 1995 and 1997). From the late nineties onwards, she turned to Mark Donahoo for advise and coaching. Simon Baker has been assisting and supporting her over the past year or so. She comments

Simon has a group that I attend on Wednesday evenings at Proclamation Park in Ringwood, and Jells Park on Sunday mornings. Being part of this group has certainly motivated and encouraged me to strive to improve my existing times. It's very challenging training with the youth of Victorian racewalking. The potential I see around me is exciting and thrilling to the degree that I am looking forward with great interest in watching the rise and growth of these capable and promising juniors over the next few years.

Heather met and married former UK soccer player (and top Masters sprinter) Bill Carr in 1999. Bill and Heather currently live in Dromana, competing regularly at Tootgarook & Frankston venues and are regulars at the Victorian Race Walking Club. Heather herself is a VRWC committee member and has been a regular winner of our VRWC Runners World award for the top club walker in the Open Women's division.

Her performances at the various World Veterans championships are amazing - a total of 27 individual gold and 7 individual silver medals and medals in each of her 17 appearances at the World Masters Championships.

She also had the honour of being Australian team flag bearer at the 1997 (Durban) and 2013 (Porto Allegre) World Veterans championships.

She has of course dominated the Australian and Oceania Masters championships for just as long, rarely if ever losing a race, and amassing an almost unbelievable competitive record.

All her children have now grown up and all have moved on from athletics to other activities but Heather still competes with great enthusiasm and enjoyment - not for the medals nor for the accolades but because she enjoys competing and enjoys racewalking.

With her 65th birthday recently celebrated, she now has her sights firmly set on the W65 record suite and the first few have already fallen to her.

She remains a wonderful role model for all her fellow walkers and we salute her on her wonderful achievements and ongoing good form.
